The University of Georgia Gwinnett Campus occupies 60,000 square feet of the Intellicenter, a new high-performance building with energy-efficient design and state of the art classroom technology. The new location provides the perfect environment for UGA to grow—expanding graduate degree programs long offered in Gwinnett and enhancing professional training programs provided through the Georgia Center for Continuing Education.

The new campus is located in the Intellicenter Building just off I-85 and near the intersection of Old Peachtree NW and Sever Road.

**Classrooms and Meeting Rooms**

**Classrooms**

All classrooms have touch control, electronic smart-podiums with ceiling mounted projectors and complete electronic peripherals.

Nineteen classrooms seat from 15–70 participants. Several large classrooms offer the popular case-style seating arrangement with tiered levels and fixed tables. Other classrooms can be setup with or without tables and chairs. All classrooms have touch control, electronic smart-podiums with ceiling mounted projectors and complete electronic peripherals. Classroom technology is available for video-conferencing and digital recording.

**Meeting Rooms**

Ten meeting rooms are available seating from 4–12 participants, with two rooms offering video-conferencing capabilities.

**Large Gathering Room**

A large activity room is the perfect setting for a reception, graduation ceremony, guest speaker or classroom. The room offers theater-style seating for 150 or round tables for 96 participants. The electronic technology is the same as in other classrooms. A large built-in red and black buffet provides the perfect location for caterers’ food. Caterers may also use the adjoining kitchen as a staging area for food for events.

**Library**

An electronic library offers students, faculty and staff access to the UGA Libraries and collections of other colleges and universities in the University System of Georgia, as well as to the GALILEO suite of databases. There are 10 workstations with computers and a reference librarian is on-site to assist students in identifying, locating and retrieving print materials.
